Overview

- webOPAC, Acquisition, Cataloging, Circulation, Authority Management, Serials Management, Article Indexing, Scheduling and Reporting modules all included in single pack and at a modest fee.

Next Generation Technology from World-Class Engineers

- Completely web-based. Open systems design for easy, seamless integration.
- True 3-tier thin client, server-centric design for easy management.
- Updates are installed on the server only. We perform all updates.
- Latest post-relational database technology enables powerful and self-customized reporting.
- Complete scalability for any size of library or consortia, any number of holdings and users.
- Cross-platform performance on any workstation, or browser.
- Rock-solid performance from a development team experienced in mission-critical applications.

Serials Management that is Unparalleled

- Efficient design eliminates steps for check-in and routing, reduces manual work.
- Claims management and library-defined warnings for missing issues.
- The webOPAC elegantly displays serials holdings and links to e-journals.
- Provides critical capabilities in a research environment where journals are key holdings.

An Elegant, Easy-to-use webOPAC

- Embedded graphics of photos, graphics, book, and journal covers in initial and detail results.
- Customized interfaces for multiple user needs.
- Multiple library locations and union catalogs are easy to implement.
- Distinct serial display with volume/issue details.

Built In Customization

- You control fonts, colors, and background. Add library or organization logo, other popular links.
- **Cybrarian™** provides functionality but you set policy with hundreds of settings for Circulation, Serial Management etc.
- webOPAC fonts, colors, terms used, even search and display logic.
- Reports can be customized and created as per the users requirement on the fly using **Cybrarian™** Reporting Services.

International Standards Compliant

- MARC 21, Z39.50, UNICODE (Multilingual Facility) SQL, etc.

Price Performance Ratio

- Higher priced systems don't offer comparable features.
- Access & Manage your Library anytime – anywhere (**24x7x365**)
